## INTRODUCTION

The study of History deals with the past—it interprets human affairs and institutions as they change in time. The University of Winnipeg's History Department offers courses which are designed to lead students, in stages, to an understanding of the historian's craft and of the historical process.

The History Department's program of study is organized into four levels that provide a natural progression from generalized to more specialized study in a particular area of interest.

The 1000-level courses are intended to introduce students to the discipline and the skills necessary for the study of history. Courses at the 2000 level are broad surveys, and provide a general examination of the major themes in a number of different areas of study including world history, social and thematic histories, the history of science, and the history of art. Courses at the 3000 level pursue, in greater detail, one or more of the themes explored in the general surveys. Their purpose is to provide the student with deeper insight into the processes of historical thought, research and writing. They also promote group discussion and permit the student to present his/her work orally to fellow students. Courses at the 4000 level are Honours seminars intended for upper level students. In a small group setting, students examine the relevant literature on historical issues and present their own research to the seminar for discussion.

Most graduates with degrees in history find that the skills they have developed—critical analysis, writing reports, and small group discussion—serve them well in the worlds of government, business and law. Some history graduates choose to pursue a career in education, while others find career opportunities in non-profit organizations, libraries, archives, and public history institutions such as museums.
