# The University of Winnipeg

2025-2026

THE UNIVERSITY OF WINNIPEG

## Welcome to The University of Winnipeg

We acknowledge that we are gathered  
on ancestral lands, on **Treaty One Territory**.  
These lands are the homeland of the **Métis people**.  
We acknowledge that our water is sourced  
from **Shoal Lake 40 First Nation**.

The University of Winnipeg is committed to partnering  
with Indigenous Peoples, and expanding knowledge  
related to the rights and responsibilities  
of the peoples in this area.

# Whatever inspires you, get ready to make your mark on the world.

The University of Winnipeg is well known  
for its academic excellence, supportive faculty,  
small class sizes, and welcoming campus.

Join a diverse community that will push you to  
dream bigger, achieve more, and expand your world.

# An academic experience like no other

## Three reasons we think you'll love it here

**400+**

courses in more than 50 fields of study

**92%**

of grads satisfied with the quality of education they received

# 01. You're more than a number

*Many of the University's professors genuinely care about their students' success, and I am so grateful for that. I started at the University planning to complete only a bachelor's, and now, with their guidance and support, I plan to pursue a PhD.*

**Precious Gauthier**  
Master of Arts in Cultural Studies

Smaller class sizes enhance your university experience and provide more opportunities. Ask more questions, get to know your professors, and meet new people.

Our caring instructors have a big impact on your learning experience. UWinnipeg's award-winning professors put you first, providing you with support to succeed in your studies and opening doors to future opportunities.

*"The small class sizes at UWinnipeg gave me many amazing opportunities during my undergraduate degree. Even in my first year, I felt comfortable chatting with profs after class and learning about research at UWinnipeg."*

**Simon DePasquale**

BSc (Hons) '23

Pictured with Dr. Caleb Hasler, Department of Biology

# 02. Early, hands-on learning

You don't have to wait to get first-hand experience. While many universities offer research opportunities at the graduate level, UWinnipeg prides itself on giving undergraduate students more opportunities to take part in real-world research.

Learning isn't only for the classroom. Get practical experience with integrated programs, cultural activities, and impressive funding and training opportunities.

10

UWinnipeg is home to ten Canada Research Chairs.

*"I got a chance to represent our department in the University Physics Competition, and two years in a row I was able to work in a chemistry lab. Working in either a small group or even a large international collaboration has been great."*

**Modeste Katotoka**  
Physics student

*"I worked as a Research Assistant for the Mathematics Department this summer, which allowed me to do something that I always wanted to do. I learned a lot of new things, collaborated with other students with similar interests, and worked through problems; all of which were very enjoyable."*

**Mithuna Threz**  
Mathematics student

*"I am conducting research on human rights challenges in the dried fish economy in Gujarat, India. Funding is crucial for research intensive programs. I received two President's Scholarships, a research award, an award from the Master of Arts in Environmental and Social Change program, and research assistantships."*

**Mohammad Anas Shoebullah Khan**  
Master in Environmental and Social Change student

# 03. Endless opportunities for students

The beauty of learning is that it can happen in many ways. You'll have opportunities beyond books and the classroom, such as lab research, conferences, work placements, and more.

You'll encounter new ideas and explore traditional ways of knowing.

*"This summer, I got to excavate at one of the most famous archaeology sites in Africa. I think it's rare for an undergrad to get research experience like this. Getting to meet these people from all over the world, and getting to learn how to interact with different cultures is fascinating, and it's a skill that translates to everything."*

**Melanie San Filippo**  
Anthropology student

# Discover your downtown campus

## Arts and Culture

Enjoy free music performances, recitals, and workshops through our partnership with The Manitoba Conservatory of Music & Arts. Students can also access studio practice spaces.

Gallery 1C03 is UWinnipeg's campus art gallery. Take in a variety of exhibits throughout the year, or showcase your own art in our annual staff and student exhibit.

Our Theatre and Film department is one of the largest in Canada, and students can take in free live performances right on campus at the fully equipped Asper Centre for Theatre and Film.

## Residence

Living in residence connects you to the heart of student life on campus and offers the convenience of being minutes away from class.

Be part of a community with single or shared dorms and furnished apartments in McFeetors Hall, or find a home away from home with shared-house living in Balmoral Houses. Family housing options are also available.

## Dining

You don't have to leave campus to get fresh, delicious and authentic dishes made from scratch. Award-winning Diversity Food Services operates many of the restaurants and cafes at UWinnipeg, and is a recognized leader in sustainable food services.

## Recreation and Wellness

The Axworthy Health & RecPlex is a state-of-the-art facility with a community gym and an indoor green space that accommodates a variety of sports like soccer, flag football, and track and field. You can use the artificial turf fields, four-lane sprint track, retractable batting cages, or the dance/yoga studio.

Squash, strength training, and basketball are just some of the free intramurals, classes, and drop-in sports available to UWinnipeg students. There's something for every interest and every skill level.

The Bill Wedlake Fitness Centre features quality cardio equipment, weight machines, and free weights. Students enjoy unlimited access to the facility year-round.

UWinnipeg is the place to be for music, sports, culture, and finding a balance between work and play. There is always something happening around campus.

UWinnipeg is walkable, bike-friendly, and easy to access via transit. You'll be part of a vibrant community at the heart of downtown Winnipeg, surrounded by exciting social and cultural opportunities.

# Student experience

Our campus is located in one of Canada's most diverse neighbourhoods. Make new friends, enjoy new experiences, and learn alongside peers from around the world.

**11%**

of our first-year students self-identify as Indigenous.

**75**

countries are represented by our 1500+ international student community.

**65**

student groups, representing a wide variety of interests, are available to choose from.

*"The campus community is welcoming and inclusive. UWinnipeg offers a variety of social activities that provide great opportunities to network with students from different programs. Participating in various events and activities allowed me to build meaningful connections and friendships."*

**Ranjini Mukherjee**

Master of Science in Bioscience, Technology and Public Policy student

*"I really do accredit where I am today to these programs. It really let me know that there are allies of Indigenous folks at UWinnipeg. Seeing that there's an effort and an initiative to push Indigenous people into the sciences, it really gives me hope for the future."*

**Corey Sanderson**

BSc '19 BA '21

## Cheer on the Wesmen or join one of our teams!

The University of Winnipeg Wesmen teams have enjoyed incredible success over the past 40 years. They have taken home 20 national championships, including 10 men's volleyball, six women's volleyball, and four women's basketball titles.

Wesmen basketball player and Rhetoric and Communications student, Donald Stewart, is using his time at UWinnipeg to explore careers both on and off the court.

*"I remember going to Wesmen camp as a kid and I grew up watching Wesmen games and Manitoba Bison Games, so I knew I really wanted to play at the university level,"* said Stewart.

Now, Stewart is a starting player for the Wesmen team, and worked in the summer as a practice player for the Winnipeg Sea Bears. He was the recipient of a Vince Leigh sports writing scholarship, which included an internship at the Winnipeg Free Press.

*"I think that smaller classes, along with professors who encourage you to speak up, that's been really valuable to me, and I'm very lucky I got to do my undergrad at UWinnipeg."*

**Donald Stewart**

Rhetoric and Communications student

## Campus life

The University of Winnipeg Students' Association provides services, student advocacy, and hosts social events throughout the year.

Meet new friends and join in activities at the Rainbow Lounge, BIPOC Lounge, and Aboriginal Student Lounge. Be part of our many student groups or unwind with friends and classmates in the UWSA Gaming Lounge.

**UWinnipeg is home to a campus and community newspaper, The Uniter, as well as a radio station, CKUW.**

# Student success

A degree from UWinnipeg  
opens up a world of possibilities.

## 95.9%

UWinnipeg grads have an  
employment rate of 95.9% two  
years after graduating.

## 25:1

is the estimated  
student-to-professor  
ratio at UWinnipeg.

## Embrace your future. Find your calling. Pursue your passion.

Olivia Friesen has been working for the Winnipeg Blue Bombers as an assistant athletic therapist since she graduated with a Bachelor of Science in Kinesiology. She loves helping people and hopes to one day be in charge of her own team.

*“I would absolutely recommend UWinnipeg to anyone. When you have a hands-on program, it’s great to be able to know each and every person you’re in class with. You get more one-on-one time with your professors. They all know your name, they can show you what to work on.”*

**Olivia Friesen**  
BSc in Kinesiology '20

## Supports for our students

As a student at The University of Winnipeg, you will have access to a variety of free student services that are here to support you in your studies. These supports are available from the day you’re accepted to the day you graduate.

- › Counselling Services
- › Health and Wellness Services
- › Academic & Career Services
- › Accessibility Services and Resource Centre
- › Adult Learner Services
- › Awards and Financial Aid
- › International, Immigrant, and Refugee Student Services

UWinnipeg is one of the first universities in Canada to ensure all students have foundational knowledge of Indigenous Peoples and cultures.

UWinnipeg and the World University Service Canada Local Committee have sponsored and resettled more than 60 young refugees in our 40+ year partnership.

*“UWinnipeg has given me a lot of tools and the confidence to keep moving forward with my career goals. They have a lot of supports for Indigenous students that I made use of. They really helped me with finishing my degree. I was able to seek out others in similar positions and make friends.”*

**Melissa Anderson**  
BSc in Medical Physics '20

# Your Path at UWinnipeg

See what your student experience could look like over the course of four years studying at UWinnipeg!

## What are Undergraduate Studies?

A 3-year degree can be your path to employment in your area of interest, while a 4-year degree can lead to graduate studies, and the option to complete honours courses.

A bachelor's degree consists of a **major** (area of focus), **degree requirements**, and **electives** (engaging courses that are not necessarily related to the major). Electives and degree requirements enable you to take courses in multiple areas of interest.

Business students can take a course in theatre and film, for example, while science students could also study literature or philosophy. Find the courses and subjects that are right for you!

### Degree Legend

- BA** Bachelor of Arts
- BSc** Bachelor of Science
- BEd** Bachelor of Education
- BBA** Bachelor of Business Administration
- BKin** Bachelor of Kinesiology
- BPHE** Bachelor of Physical and Health Education
- Honours** 4-Year Honours Degree

## Pre-Professional Studies

Pre-Chiropractic  
 Pre-Dental Hygiene  
 Pre-Dentistry  
 Pre-Law  
 Pre-Medical Technology  
 Pre-Medicine  
 Pre-Occupational Therapy  
 Pre-Optometry  
 Pre-Pharmacy  
 Pre-Physical Therapy  
 Pre-Physician Assistant  
 Pre-Radiation Therapy  
 Pre-Respiratory Therapy  
 Pre-Social Work  
 Pre-Veterinary Medicine

➔ Pre-Professional Programs enable students to fulfil the admission requirements for professional programs at other institutions.

➔ UWinnipeg also offers language courses in Arabic, Chinese, Cree, Dutch, Greek (Ancient), Hebrew (Biblical), Italian, Japanese, Korean, Latin and Ojibwe.

# Faculty of Arts

For centuries, the study of arts has fostered a passion for the humanities and social sciences. While we instill that passion today, it's infused with the creative and critical thinking skills that empower graduates to solve modern problems – and impact society in a meaningful way.

## Classics

For those with a desire to understand our modern world, this is an ideal way to begin. Classical studies introduces the history, culture, literature, philosophy, and art of ancient Greece and Rome. Study the legacies of great poets and philosophers such as Plato, Sophocles, Virgil, and Cicero – and gain skills in research and writing.

---

**BA 3YR / 4YR / Honours**

## Conflict Resolution Studies

This interdisciplinary field deals with the nature and dynamics of human conflict. It explores topics of violence, power, justice, peace, communication and culture, as well as personal, local, and global conflict. Choose from courses in a variety of different subject areas, and complete a practicum program in either a local or international setting.

---

**BA 3YR**

## Criminal Justice

Examine concepts and practical applications of justice, as well as historical and contemporary explanations of responses to crime. Students are challenged to think critically about how justice is best achieved, the key issues confronting the criminal justice system, the strengths and weaknesses of possible reforms, and the ethical dilemmas facing criminal justice practitioners.

---

**BA 3YR / 4YR / Honours**

## Dance

This joint program with The School of Contemporary Dancers offers the advantages of concentrated, conservatory-style dance training teamed with a liberal arts education. The combination is designed to prepare students to be performers and artists of wide-ranging and deep perceptiveness. Admission to the dance school is by audition, for students with intermediate training.

---

**BA 3YR / 4YR / Honours**

## Disability Studies

Think about “disability” and “ability” in new ways. Using the social model rather than the bio-medical model, the problem becomes a lack of ramps rather than someone using a wheelchair. The focus of this interdisciplinary program is the critical analysis of disability in society.

---

**BA 3YR / 4YR / Honours / Joint Degree-Diploma (RRC Polytech)**

## East Asian Languages and Cultures

Study the Chinese, Japanese, and Korean languages and delve into the intellectual legacy, cultural habits, religious and social values, literatures, and history of the East Asian region. Gain insights into a dynamic region that is a major factor in current affairs and shaping our global future for years to come.

---

**BA 3YR / 4YR**

## English

Consider the various aesthetic, cultural, and historical factors that influence what we read and write. Courses focus on literary periods that range from classic to contemporary; writers from Shakespeare to Carol Shields and Tomson Highway. Develop excellent analytical, reading, and writing skills, and choose from a number of different areas including Rhetoric, Literature, and Creative Writing.

---

**BA 3YR / 4YR / Honours**

## French Studies

This program will meet the needs of students pursuing a degree as well as those interested in just a few courses. Explore diverse areas of linguistics, writing, translation, stylistics, and francophone literature. Courses are offered at various levels, and there is an opportunity to study at a partner university in France.

---

**BA 3YR / 4YR / Honours**

## German Studies

Offers up-to-date, effective language instruction for beginners through to advanced students. Develop analytical, communication, and writing skills that can be used in careers in education, business, and government. There is also an opportunity to participate in an exchange program with the Universitat Bamberg in Southern Germany.

---

**BA 3YR**

## History

Exploring the past helps us understand the complexities of the present, and anticipate the challenges of the future. Explore the careers of major figures such as Galileo, Gandhi, and Stalin. Improve the ability to evaluate evidence and learn how to present interpretations in clear and logical written and oral arguments.

---

**BA 3YR / 4YR / Honours**

## History of Art

Art has the ability to transform space and create dialogue that invokes social change throughout different moments of time and various societies. Probe the history behind the world's outstanding sculptures, paintings, and architecture, while developing skills in critical thinking and visual communication, and come into firsthand contact with selected works of art.

---

**BA 3YR / 4YR / Honours**

## Human Rights

Interested in obtaining an education organized around questions of social justice, global citizenship and human rights? Consider a major in human rights – the only one of its kind in Western Canada. Through this multidisciplinary program, students have an opportunity to explore issues of human rights in a context defined by globalization.

---

**BA 3YR / 4YR**

## Indigenous Languages

Indigenous languages are the foundation of Indigenous knowledges and communities. The Indigenous Languages thematic major provides students with an interdisciplinary education in Indigenous languages that focuses on revitalization, planning, and communication. Through core courses in Indigenous Studies and Linguistics, students grow as speakers of an Indigenous language and as capable proponents of Indigenous language revitalization.

---

**BA 3YR / 4YR**

## Indigenous Studies

The department is designed to provide students with a multi-disciplinary perspective which is grounded in an understanding of Indigenous Peoples' principles, values, and philosophies. The program will provide students with a solid background in theory and practice regarding the distinctive political and legal environments of Aboriginal governments.

---

**BA 3YR / 4YR / Honours**

## Interdisciplinary Linguistics

Examine the complexities of language use in daily communication within various social and cultural contexts. Explore language structure and cultural context across a variety of university departments. Gain an in-depth understanding of how language encodes meaning, and gain skills to write, read, and speak with greater confidence, fluency, and power.

**BA 3YR / 4YR / Honours**

## Mennonite Studies

This program provides an opportunity to study the rich heritage of the Mennonites and their contribution to society. This interdisciplinary program combines studies in history, religion, culture, and literature as they relate to Mennonites in transnational contexts. Focus on the Anabaptist ideas of nonviolence, history of migration, environmental sustainability, and changing ethno-religious identities.

**BA 3YR**

## Philosophy

Enjoy thinking about life's big questions? Engage in disciplined and imaginative thinking about the philosophical questions common to all humans by studying the works of great philosophers. Through analysis and discussion, learn how to think critically, and understand the origins of the ideas that influence us today.

**BA 3YR / 4YR / Honours**

## Political Science

Politics affects our lives in a vast number of ways. Examine relations between state and civil society, the power of human rights, and the impact of political parties, interest groups, and government organizations. Sample courses from different areas, or focus on one area such as global, Canadian, or community politics.

**BA 3YR / 4YR / Honours**

## Psychology

Why do people think, feel, perceive, and behave the way they do? Psychologists seek to find answers to these questions by studying the human mind and behaviour. The program explores topics ranging from the basic nervous system to principles of perception, learning, and cognition to gain an understanding of both social and clinical psychology.

**BA 3YR / 4YR / Honours**

## Religion and Culture

The study of religion focuses on the human search for meaning and purpose in life, as it is expressed in stories, rituals, codes of conduct, canonical texts, and cultural values. The program explores religion in four areas: Historical Judaism, Christianity and Islam, Asian Religions and Cultures, and Indigenous Religious Traditions.

**BA 3YR / 4YR / Honours**

## Rhetoric and Communications

Emphasizes the evaluation, production, and precise editing of messages for a range of audiences, media, and purposes, to develop highly adaptable communicators with superb hands-on skills in drafting, revising, and editing. Acquire the theoretical and analytical background to prepare, adapt, interpret, and evaluate messages intended for a wide range of audiences and purposes.

**BA 3YR / 4YR / Joint Degree-Diploma (RRC Polytech)**

## Sociology

Sociologists help us to understand how common sense comes to be common sense. In other words, sociology tells us how and why certain ideas are taken for granted and become popular and dominant during different social, economic, and historical time periods. Examine age, class, ethnicity, family, education, work, and social change.

**BA 3YR / 4YR / Honours**

## Spanish Studies

Offers a variety of relevant, up-to-date courses where students discuss current events, issues, and trends in the contemporary Hispanic world; explore the social, political, and cultural history of Spain and Latin America; translate newspaper articles and other texts; learn about the customs and traditions of Spain; or read *Don Quixote*.

**BA 3YR**

## Theatre and Film

Our program – one of the largest in Canada – includes the opportunity to obtain a degree in one of six different areas of study: Acting and Directing, Design, Drama in Education, Filmmaking, Playwriting, Stage Management or Production. Coursework will encompass a full range of practical and theoretical study, to prepare for an exciting career in the arts.

**BA 3YR / 4YR / Honours**

## Urban and Inner-City Studies

In Canada, cities continue to be centres that face great challenges. The program provides an opportunity to examine the political, economic, social, and spatial context of these challenges from diverse perspectives. Through its courses, examine the urban Indigenous experience, the immigrant and refugee experience, and the role of women in our society.

**BA 3YR / 4YR / Honours**

## Women's and Gender Studies

Focuses on developing a critical consciousness of societal inequalities including those based on social differences. It inquires into how people's lives are made to matter through relations of gender, race, class, religion, sexuality, age, and embodiment, and how systems of power including colonization, racism, and sexism bear upon our everyday experiences.

**BA 3YR / 4YR / Honours**

### Take the Stage

Our theatre and film program is one of the largest in Canada.

### See the World

Study abroad and student-exchange opportunities are available in 22 different countries.

### 📍 The Centre for Research in Cultural Studies

The Cultural Studies Research Group at UWinnipeg has actively worked with Shoal Lake 40 First Nation on a number of solidarity actions.

# Faculty of Business and Economics

Steeped in our interdisciplinary approach, learning opportunities in our business and economics programs engage and challenge students with real-world contacts. We don't just produce graduates – we develop innovative leaders who are capable of adapting to the ever-changing needs of a modern world.

## Business and Administration

The world is changing, the demands of employers are evolving, and challenges that were once local are now global. Recognizing change, adapting to it, and being ready for it are the hallmarks of good business leadership. Our business education means getting ready for the future by helping students develop solid fundamental skills along with flexible abilities to face the future with confidence.

### Concentration areas available with the 4-year program:

- › Accounting
- › Economics and Finance
- › Human Resource Management and Organizational Behavior
- › International Business
- › Marketing
- › Operations and Supply Chain Management

### BBA 3YR / 4YR

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S

## Economics

Economics analyzes how societies provide for their well-being. Learn about the difficult choices made by consumers, investors, managers, policy makers, and citizens. To help fully understand these choices, economic theory and its historical and institutional background are presented within a Canadian perspective.

### BA 3YR / 4YR / Honours

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S

## Economics and Finance

Learn the language of Bay Street and Wall Street and gain a deep understanding of the role financial markets and financial instruments play in a modern economy. Analyze how financial instruments and markets can contribute to the well-being of all members of society.

### BA 4YR / BBA 4YR

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S

# Gupta Faculty of Kinesiology and Applied Health

From a child's first step to an awe-inspiring athletic feat, we are captivated by human movement. Whether your passion is sport or health, science or fitness, explore the world of kinesiology and discover how we may optimize the potential for human motor performance.

## Kinesiology

Explore the study of human movement. This degree can be applied to various careers, spanning physical activity and aging, adapted physical activity (working with persons with disabilities), sport psychology, and sport administration, among others. It is also good preparation for graduate study.

### BKin 4YR / Honours

## Athletic Therapy

The scope of practice of an athletic therapist is devoted to the health care of the physically active individual. This involves injury prevention, immediate care, and reconditioning of musculoskeletal injuries. UWinnipeg's AT curriculum is one of only seven programs accredited by the Canadian Athletic Therapists Association (CATA).

**Note:** This is not a direct entry program. Following completion of a required list of courses, students will apply for entry into the Athletic Therapy degree stream in the Winter term, prior to their desired start date.

### BSc 4YR

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S

## Physical and Health Education

Students thinking about teaching physical education in the school system as their career of choice should consider this integrated program. Combine kinesiology and education courses throughout five years of study to prepare to teach at the early, middle, or senior years level.

### BPHE plus BEd

**Prerequisites:** See education requirements on p.33 of the viewbook.

### JDC West

UWinnipeg students have taken top scores at Western Canada's largest business competition.

### Co-op Program

Gain real-world work experience and put classroom knowledge into action!

### Work with Athletes

Athletic Therapy students work with a variety of community sport teams, including the Wesmen.

### Stay Fit

Students have unlimited access to campus athletic and fitness facilities.

# Faculty of Science

We believe in learning and doing. Cutting-edge research opportunities await: like helping to diagnose dementia for earlier treatment, combating Dutch elm disease, or pursuing the discovery of new mathematical theorems. Our students expand their understanding of the world while getting ready to leave their own imprint.

## Anthropology

Study the evolution of humankind by examining how humans have developed and adapted, both culturally and physically, to the world around them. Specialize in cultural anthropology, archaeology, or physical anthropology, or choose an integrated program that includes all three areas. Practical experience is also available through the Archaeological Field School.

**BA 3YR / 4YR / Honours**

## Applied Computer Science

Focuses on the theory and application of computing in business and scientific environments. Develop skills in core areas such as programming, database management, and software engineering, among others. This major is designed to provide an excellent basis for graduate studies in either computer science or applied computing.

**BA 3YR / 4YR | BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S may be required

## Bioanthropology

Combining aspects of anthropology with biological and physical sciences, this program teaches students to examine human biological systems of the past and present. Gain an understanding of comparative anatomy, cellular biology, and methods in human and primate evolution and obtain experience in current laboratory techniques.

**BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

## Biochemistry

Study the chemistry of life. Investigate living systems by combining the knowledge and methodologies of biochemistry, cell biology, genetics, and microbiology with those of the physical sciences. The degree will prepare students for work in various industries, or for admission to professional schools in the health sciences.

**BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

## Biology

Study all forms of life, from DNA to the interactions of organisms within various ecosystems. Specialize in botany, zoology, microbiology, ecology, genetics, or molecular biology. Prepare for a career in laboratories, research, pharmaceuticals, conservation, and wildlife management.

**BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

## Chemistry

The essential science to the building blocks of life, it spans all aspects of our lives, from health and nutrition to scientific discoveries and management of an environmentally sustainable world. A degree allows students to specialize in analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, or physical chemistry.

**BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

## Environmental Studies and Sciences

Combine many different perspectives to understand the changes in our environment, while acknowledging human impacts and providing a framework to develop solutions for environmental programs. Choose a course of study from six different subject areas including Chemistry, Forest Ecology, Forest Policy and Management, Global Environmental Systems, Issues in Sustainability, and Urban Environments.

**BA 3YR / 4YR / Honours | BSc 4YR / Honours / Joint Degree-Diploma (RRC Polytech - Applied Environmental Science)**

**Prerequisites:** BA program: none  
BSc & Joint Degree-Diploma: Pre-Calculus Mathematics 40S or Applied Mathematics 40S and Chemistry 40S

## Geography

Expand your understanding of our planet, and interactions between the land and its people. Explore local, regional, and international systems; climate change; and urban and community development. Learn about geographical patterns and landscapes while participating in lab experiments, seminars, and field trips. Pursue a degree in science or arts.

**BA 3YR / 4YR / Honours | BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S is required for the science program. Chemistry 40S and Physics 40S may also be required, depending on course selection.

## Mathematics

Study the science of number, form, and logic and further develop the ability to work with numbers, shapes, and figures, and to reason in a logical manner. Courses include algebra, statistics, calculus, combinatorics, discrete mathematics, and more. Students have an opportunity to work with researchers to apply skills and receive hands-on experience.

**BA 3YR / 4YR | BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus Mathematics 40S

## Neuroscience

How do the brain and nervous system control behaviour? This program provides an understanding of the integrated relationship between biology and psychology. Develop a strong understanding of the structure and function of the nervous system and explore the relationship between the nervous system and behaviour.

**BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S and Chemistry 40S

## Physics

The study of nature at its most fundamental level offers the opportunity to explore phenomena at all levels – from the world of the atom to the reaches of the universe. In our nationally recognized department, students imagine, deduce, and investigate the inner workings of black holes, hot space, chaos, and quantum gravity. Streams are available in Computational Physics, Medical Physics, and Radiation Therapy.

**BSc 3YR / 4YR / Honours**

**Prerequisites:** Pre-Calculus Mathematics 40S and Physics 40S

## Statistics

Today's society is bombarded with information. The internet, politicians, and the media are constantly citing numbers, ratios, and percentages to bolster points of view. Statistics offers the tools to understand this language through rational decision making. Take courses in statistical analysis, survey sampling, and operations research, while learning tools for application in business, computing, and government. Streams are available in Business and Data Science.

**BA 3YR / 4YR | BSc 3YR / 4YR**

**Prerequisites:** Pre-Calculus or Applied Mathematics 40S

# 30

**UWinnipeg is home to 30 research and teaching labs.**

### The Centre for Terrestrial and Planetary Research

UWinnipeg researchers at the Centre for Terrestrial and Planetary Research are working to figure out what the dust in the atmosphere of Mars is made of!

# Faculty of Education

Teachers have the unique opportunity to impact growing minds and shape young futures. Considered among the best in North America, our teacher education program is committed to preparing capable, caring educational leaders who are grounded in the ideals of service, scholarship, and equality.

## Integrated Education Program

This unique program will allow students to work towards two degrees at the same time, while gaining practical experience. Over a period of five years, students will work towards a Bachelor of Arts, Kinesiology, or Science, at the same time as a Bachelor of Education.

Starting in the second year, students are placed in the classroom to observe and gain teaching experience – and continue student teaching in every year of the program for a total of 24 weeks of experience.

### Applicants choose from one of two streams:

- › Elementary Stream – Kindergarten to Grade 8
- › Senior Years Stream – Grades 9 to 12

Applicants will also indicate a major and a minor teachable subject on the application, from the lists below:

### Major Teachable Areas

- › Biology
- › Chemistry
- › English
- › French Studies
- › Geography
- › German Studies (except for Senior stream)
- › History
- › Indigenous Studies\*
- › Kinesiology
- › Mathematics
- › Physics
- › Spanish Studies (except for Senior stream)
- › Theatre and Film

### Minor Teachable Areas

- › Anthropology
- › Biology
- › Chemistry
- › Classics
- › Dance
- › Developmental Studies (except for Senior stream)
- › Economics
- › English
- › French Studies
- › Geography
- › German Studies (except for Senior stream)
- › History
- › Indigenous Studies
- › Kinesiology
- › Mathematics
- › Philosophy
- › Physics
- › Political Science
- › Psychology
- › Religion & Culture
- › Sociology
- › Spanish Studies (except for Senior stream)
- › Theatre and Film

For more information about applying, please see page 30 of the viewbook.

## After-Degree Program

Those who already have a university degree can earn a Bachelor of Education in just two years. To be eligible to apply, course work must be completed in two Arts or Science teachable areas (see list of Major and Minor Teachable Areas).

For more information please visit:  
[uwinnipeg.ca/after-degree-program](http://uwinnipeg.ca/after-degree-program)

## Other Education Programs

- › UWinnipeg/Red River College Polytechnic Joint Programs
  - Applied Commerce Education
  - Industrial Arts Education
  - Technical Vocational Teacher Education
- › Access Programs
  - University of Winnipeg Education Centre (WEC)
  - Community-based Aboriginal Teacher Education Program (CATEP)
  - Immigrant Teacher Education Program (ITEP)

For more information on these programs, please visit: [uwinnipeg.ca/education](http://uwinnipeg.ca/education)

## Developmental Studies

Analyze the biological, environmental, and social factors that influence individual and group development. In this interdisciplinary program, students have the opportunity to customize their university education to meet educational and career goals. Choose from Individual Human Development, Comparative Biological Development, and Child Development and Child Care.

**BA 3YR / Joint Degree-Diploma (RRC Polytech, Université de St. Boniface)**

### Two Degrees!

Earn two degrees in five years with the Integrated Program.

# 24

**Total weeks of classroom teaching experience.**

### Teach Overseas!

Offering overseas practicum and teaching opportunities to fourth and fifth year students.

# Pre-Professional Studies

If you have the vision, determination, and passion to enter a profession such as medicine, dentistry, or law, start here. Our smaller class sizes, research opportunities, and strong reputation for academic excellence will give you the advantages you need when applying to your professional program of choice. All of these UWinnipeg programs are direct entry.

Program	Time at UWinnipeg	Total Duration	Grade 12 Courses (40S)
Chiropractic	3 years *	7 years	Pre-Calculus or Applied Math and Chemistry
Dental Hygiene	1 year	3 years	Pre-Calculus or Applied Math and Chemistry Biology is recommended
Dentistry	2 years	6 years	Pre-Calculus or Applied Math and Chemistry Physics may be required and Biology is recommended
Law	2 years	5 years	General requirements only
Medical Technology	1 year	2/5 years	Pre-Calculus or Applied Math and Chemistry Physics may be required
Medicine	3 years *	7 years	Pre-Calculus or Applied Math and Chemistry Biology and Physics are recommended
Occupational Therapy	3 years *	5 years	Pre-Calculus or Applied Math Chemistry, Biology, and Physics are recommended
Optometry	3 years *	7 years	Pre-Calculus or Applied Math and Chemistry Physics may be required
Pharmacy	2 years	6 years	Pre-Calculus and Chemistry Biology is recommended
Physical Therapy	3 years *	5 years	Pre-Calculus or Applied Math and Chemistry
Physician Assistant	4 years	6 years	Pre-Calculus or Applied Math and Chemistry Biology and Physics are recommended
Radiation Therapy	1 year	4 years	Pre-Calculus or Applied Math Chemistry and Physics are recommended
Respiratory Therapy	1 year	4 years	Pre-Calculus or Applied Math and Chemistry Biology and Physics are recommended
Social Work	1 year	4 years	General requirements only
Veterinary Medicine	2 years	6 years	Pre-Calculus or Applied Math and Chemistry Biology and Physics are recommended

\*These durations are sufficient for graduation with a bachelor's degree

⊕ If you change your mind, courses taken as part of a pre-professional program are applicable to other UWinnipeg degree programs.

# How to Apply

[uwinnipeg.ca/apply](http://uwinnipeg.ca/apply)

## 01.

### Discover

- › Explore our list of programs on page 16
- › Learn more about the programs by reading their descriptions on pages 18-28
- › Check out our program factsheets at: [uwinnipeg.ca/factsheets](http://uwinnipeg.ca/factsheets)
- › Attend Future Student Night (November 26) or Open House (February 19)
- › Book a campus tour
- › Meet with a recruiter for information about programs, admission requirements, and the online application
- › Email [welcome@uwinnipeg.ca](mailto:welcome@uwinnipeg.ca) to sign up for our monthly e-newsletter
- › Follow us on Instagram to stay connected: [@uwinnipegrecruit](https://www.instagram.com/uwinnipegrecruit)

## 02.

### Apply

- › Review the admission requirements on page 32 or on our website: [uwinnipeg.ca/future-student](http://uwinnipeg.ca/future-student)
- › Visit [uwinnipeg.ca/apply](http://uwinnipeg.ca/apply) to create your account and apply
- › Pay the \$100 application fee
- › Submit supporting documents when requested by the Admissions Office (through the application portal)
- › Apply for scholarships and awards

## 03.

### Next Steps

- › Watch for your official Letter of Acceptance, sent to your email
- › Check the confirmation email you receive after applying for admission to retrieve your user ID and password
- › Log in to WebAdvisor to access Student Planning, where you plan your courses and register for them
- › Set up an appointment with an Academic Advisor
- › Attend a Getting Ready for First Year session and/or First Year Information session
- › Register and attend Orientation
- › Pay your tuition fees before the start of classes

# First-Year Tips

Things to consider before you apply

### Deciding What to Study

- › Start directly in the area/subject that interests you
- › You can sample other courses in your first year
- › All courses taken in the first year count towards your degree

### Applying for Admission

- › You don't choose your courses when you apply for admission
- › When you apply, select a faculty and a major (for example, Faculty of Arts – Psychology), along with a degree option (3-year, 4-year or Honours)
- › You can change your major/degree plan during your studies

### Choosing First-Year Courses

- › Students starting in September register for courses in June or July
- › Select a variety of courses including those that count towards your general degree requirements and other courses of interest
- › Create your own schedule. Full-time students take 3-5 courses each term

### Resources for Accepted Students

- › The factsheets ([uwinnipeg.ca/factsheets](http://uwinnipeg.ca/factsheets)) provide lists of suggested courses to take
- › FYI Sessions – to learn more about registering for courses and creating a schedule, visit [uwinnipeg.ca/fyi](http://uwinnipeg.ca/fyi)
- › Academic Advisors are available for drop-in appointments
- › Online guides and videos outline each step of the course selection process at [uwinnipeg.ca/student](http://uwinnipeg.ca/student)

# Admission Requirements

[uwinnipeg.ca/future-student](http://uwinnipeg.ca/future-student)

UWinnipeg students bring diverse experiences and backgrounds to our vibrant community. Whether you are a Manitoba student completing high school, an adult learner, a second degree-seeker, or from another province, we welcome you.

## Manitoba High School Students

### Regular requirements for programs in all faculties (except the Faculty of Education):

Current high school students graduating in June, or high school graduates, should have at least 30 Manitoba high school credits, including:

- › Five credits at the Grade 12 level (40 A, S, G or U). Three must be 40S. Physical Education 40F cannot be used as one of the five courses.
- › Present at least one credit of core English 40S (Comprehensive, Literary, or Transactional Focus) and one credit of core Mathematics 40S (Pre-Calculus, Applied, or Essential).
- › Have a minimum 65% admission average, calculated using:
  - One English 40S
  - One Mathematics 40S
  - One other 40S credit from a different subject area

The highest grade will be used for each required course, if more than one option is available.

Some programs have prerequisite courses, which can be found with each program description, if applicable. See the Program Guide, view program factsheets online at: [uwinnipeg.ca/factsheets](http://uwinnipeg.ca/factsheets), or visit [uwinnipeg.ca/pre-req](http://uwinnipeg.ca/pre-req). Students lacking prerequisite courses can take foundational courses at UWinnipeg or enrol in an adult educational centre.

There are many types of students looking to study at UWinnipeg, at all stages of their academic path. For other admission categories, including mature, transfer, and homeschooled, visit: [uwinnipeg.ca/admissions-req](http://uwinnipeg.ca/admissions-req)

## Français/French Immersion Students

In place of English 40S, Français and French Immersion students may present Anglais 40S or Français 40S to calculate the admission and entrance scholarship averages.

## AP & IB Credits

UWinnipeg recognizes the Advanced Placement (AP) and International Baccalaureate (IB) secondary school programs, and will take these courses into account when considering admission requirements, scholarships, and university credit. Transfer credit is awarded for more than 25 AP courses and more than 20 IB courses.

In addition to transfer credits, students receive awards for successful completion of AP and IB exams.

Visit [uwinnipeg.ca/ap-ib](http://uwinnipeg.ca/ap-ib) for more information.

⊕ The language of instruction at UWinnipeg is English. If English is not your first/primary language and you are not from an English-exempt country, you must provide supporting documentation to show you meet one of the required conditions.

Visit [uwinnipeg.ca/language-req](http://uwinnipeg.ca/language-req) for more information.

## Faculty of Education Admission Requirements

[uwinnipeg.ca/education-apply](http://uwinnipeg.ca/education-apply)

The Faculty of Education's Integrated program is a limited enrolment program and there is a selection process for each category. Refer to the English/Math Combination Chart below to check eligibility and to see how the admission average will be calculated.

Admission to the Integrated Education program is competitive, and students who are not admitted may be offered general admission into another UWinnipeg faculty, where they can start a program in their desired teachable areas and then apply to transfer into the Faculty of Education the following year.

Are you taking 1 or 2 core English courses?	Which Math are you taking?		
	Pre-Calculus Math	Applied Math	Consumer Math
<b>2 Credits of English 40S or A (2 credits are combined to create one grade) -or- English/Anglais &amp; Français</b>	<b>Eligible</b> Higher grade (either the combined English mark OR Pre-Cal) + 2 Approved List Courses	<b>Eligible</b> Higher grade (either the combined English mark OR Applied) + 2 Approved List Courses	<b>Eligible</b> 2 credits of English + 2 Approved List Courses
<b>1 Credit of English 40S or A</b>	<b>Eligible</b> Pre-Calculus Math 40S + 2 Approved list courses	<b>Not Eligible</b> Does not have 2 credits of English or Pre-Calculus Math 40S	<b>Not Eligible</b> Does not have 2 credits of English or Pre-Calculus Math 40S

### Note:

1. Essential Mathematics 40S cannot be used to calculate the admission average. Advanced Placement and International Baccalaureate courses can be used to calculate Education admission and entrance scholarship averages.
2. Elementary stream: Students who have not successfully completed either Applied or Pre-Calculus Mathematics 40S will be required to take an additional non-credit mathematics course to meet the math prerequisite for the mandated math course in the program OR take an entrance test to determine if they meet the math prerequisite. For more information, please contact the Faculty of Education at 204.786.9491 or [education@uwinnipeg.ca](mailto:education@uwinnipeg.ca).

### How is the admission average calculated?

For those with the eligible combination of English and math, the higher grade of either the combined English credits or the math credit will be combined with two courses from the Approved List on the next page.

#### Example 1:

- › English Comp Focus 40S: 75%
- › English Literary Focus 40S: 79%
- › Applied Math 40S: 85%

The combined English grade is 77% and so the higher Applied Math grade of 85% will be used along with two Approved List courses.

#### Example 2:

- › English Transactional Focus 40S: 84%
- › Français 40S: 80%
- › Pre-Calculus Math 40S: 75%

The combined English and Français grade of 82% is higher than the Pre-Calculus grade, and so that will be used along with two Approved List courses.

For students with only one English 40S, the average will be calculated using the Pre-Calculus Math and two Approved List courses.

**Approved List of Grade 12 Courses**

The following courses can be used to calculate the average for entrance into the Faculty of Education:

- |  |  |  |
|--|--|--|
| Accounting Systems   | Economics                                  | Latin  |
| Anglais  | English (two credits)                      | Law  |
| Art  | Family Studies                             | Mathematics (Applied or Pre-Calculus)                                  |
| Biology  | Filipino                                   | Music (one of: Band, Choral,<br>Guitar, Strings, Private Music Option) |
| Chemistry  | Français                                   | Physics  |
| Chinese (Cantonese) 41G                                      | French                                     | Polish   |
| Chinese (Mandarin)   | Geography                                  | Portuguese   |
| Cinema as a Witness to Modern History                        | German                                     | Psychology   |
| Computer Science   | Global Issues: Citizens and Sustainability | Spanish  |
| Cree/Ojibwe/Saulteaux 41G                                    | Hebrew                                     | Ukrainian  |
| Current Topics in First Nations,<br>Métis, and Inuit Studies | History of Western Civilization            | World Issues   |
| Dramatic Arts  | Italian                                    | World Religions  |
|  | Japanese                                   |  |

All courses 40S unless otherwise indicated.

# Student Services

[uwinnipeg.ca/student-services](http://uwinnipeg.ca/student-services)

We're known for our strong student supports. Here, you'll have access to a wide variety of free student services to support you in your studies.

**Academic and Career Advising**  
[uwinnipeg.ca/academic-advising](http://uwinnipeg.ca/academic-advising)

We are dedicated to helping you reach your academic and career goals. Meet with an academic advisor every year throughout your studies to get the most out of your degree plan. If you would like to explore your career options or learn more about how your degree relates to a career in your chosen field, you can meet with a career advisor, who can also help with employment services like résumé writing and interview skills.

**Accessibility Services and the Accessibility Resource Centre**  
[uwinnipeg.ca/accessibility-services](http://uwinnipeg.ca/accessibility-services)

If you are a student who requires Accessibility Services (AS) including adaptive and/or accommodation services, you can declare your interest in receiving information about AS on your application (centre located in 1M35, on the first floor of Manitoba Hall).

**Adult Learner Services**  
[uwinnipeg.ca/adult-learner-services](http://uwinnipeg.ca/adult-learner-services)

If you are a new student who has been out of school for three or more years and do not meet the regular admission requirements, you qualify for mature status. Turn skills gained through work and life experience into university acceptance and credit.

**Awards and Financial Aid**  
[uwinnipeg.ca/awards](http://uwinnipeg.ca/awards)

Find out how to finance your studies and how to apply for scholarships, awards, bursaries, and government student aid.

**Student Wellness**  
[uwinnipeg.ca/student-wellness](http://uwinnipeg.ca/student-wellness)

Comprehensive general and specialized counselling and health services are provided to all students for free at the Wellness Centre, located on the first floor of Duckworth Centre (1D24). Klinik on Campus offers free and confidential health information, workshops, and medical appointments.

**Aboriginal Student Services Centre (ASSC)**  
[uwinnipeg.ca/assc](http://uwinnipeg.ca/assc)

A hub of excitement and a vibrant gathering place for educational, cultural, and social activities, the ASSC strives to create a sense of community for Indigenous students throughout their studies. The student lounge has a computer lab, lockers, and a kitchen facility, and is open seven days a week. Supports include Elders-in-Residence, free tutoring, and academic advising.

**International Student Services (ISS)**  
[uwinnipeg.ca/iss](http://uwinnipeg.ca/iss)

ISS provides a safe, educational, and culturally sensitive environment for all international students as they pursue their academic studies, from admission through to graduation. Take advantage of the social and cultural activities as well as the support and advising that ISS provides.

**Immigrant and Refugee Student Services (IRSS)**  
[uwinnipeg.ca/irss](http://uwinnipeg.ca/irss)

IRSS supports immigrant and refugee students during their journey to UWinnipeg and beyond. Dedicated supports assist students through each step of the process.

**Programs offered through ASSC & IRSS:**

- › **Transition Year Program**  
The transition to post-secondary studies may be challenging for some high school students and mature adult learners. The Transition Year Program (TYP) has been developed to assist students in building the academic and personal coping skills necessary for post-secondary success.
- › **Mentor Program**  
Open to any new student, including international, visiting and exchange students, newcomers, rural Canadians, adult learners, and any other student who wants to meet new people, get some extra help and learn new things about UWinnipeg and living in the city.

📍 The majority of our Student Services departments are located at **489 Portage Avenue**, in the Rice Centre, across the street from the main campus.

# Campus Living

[uwinnipeg.ca/campus-living](http://uwinnipeg.ca/campus-living)

Living in residence at UWinnipeg gives you the opportunity to live on your own, without being alone. You'll meet students from across Canada and around the world, establish lifelong friendships, and get involved in a variety of activities around campus and in the surrounding area.

## Residence Options

McFeetors Hall offers modern, air-conditioned dorm-style units with a private washroom, common lounge areas with a TV, kitchen and free Wi-Fi, study areas, and laundry facilities. Room options include single and double furnished dorms.

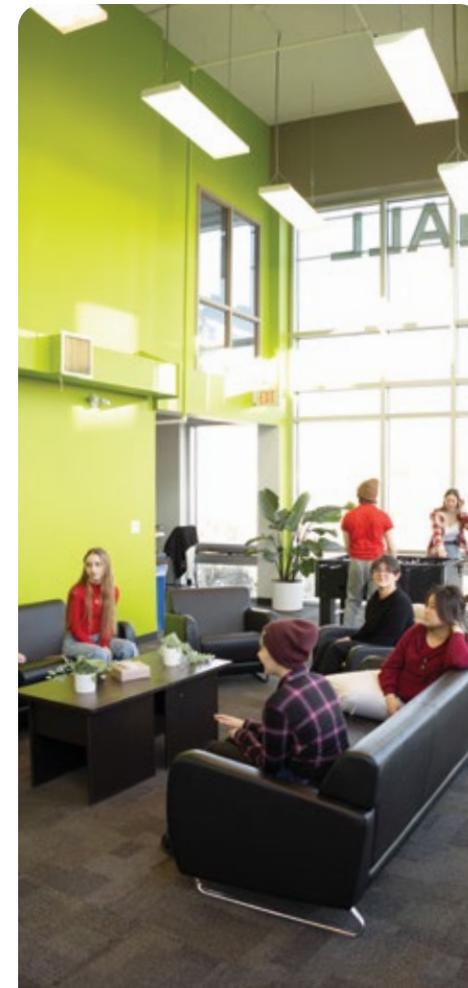

The Balmoral Houses feature shared common areas and private bedrooms with air conditioning.

Other options include family housing in McFeetors Hall as well as Downtown Commons, a mixed-use apartment complex across from the main campus.

### Residence Options and Fees for One Academic Year (September-April)

**McFeetors Hall**  
Single furnished dorm with meal plan \$11,735

**Balmoral Houses**  
Single furnished dorm \$5,980

# Scholarships and Bursaries

[uwinnipeg.ca/awards](http://uwinnipeg.ca/awards)

## Entrance Awards and Scholarships

	Eligibility	Value	How to Apply
<b>Special Entrance Scholarships</b>	Recent high school graduates with admission grade average of 85% or higher	85-89.9% - \$1,100 90-94.9% - \$1,750 95-100% - \$2,250	Submit your admissions application before March 1
<b>Applied for Entrance Awards</b>	Variety of criteria such as community involvement, leadership experience, etc.	Varies	Submit your application and log in to the awards portal to apply by March 1
<b>IB Entrance Scholarship</b>	International Baccalaureate Diploma with 30+ points, with no grades below four	\$2,250	Automatic consideration
<b>AP Program Entrance Scholarship</b>	Achieve the Advanced Placement Scholar with Distinction	\$2,250	Automatic consideration
<b>AP Transfer Credit Scholarship</b>	Admitted directly from high school and transfer exam results toward undergraduate studies	\$250 for each AP exam result of 5 \$150 for each AP exam result of 4	Submit a Request to Transfer Credit form before October 31 of first year

## In-Course Awards and Bursaries

First-year and continuing UWinnipeg students are eligible for a wide range of awards, bursaries, and prizes in the fall term. The online awards portal automatically matches students to awards based on their student record. Be sure to log in to provide additional information required for many in-course awards and bursaries.

## Opportunity Fund Bursary and General Bursary

Bursaries are available to current full-time students with a financial need and a minimum GPA of 2.0. The Opportunity Fund is a unique UWinnipeg initiative and endowment that supports bursaries for Indigenous, low-income and refugee students, as well as those from war-affected countries, recent immigrants, and mature learners. General Bursaries for other domestic students are supported by UWinnipeg to supplement living costs while studying.

## Government Student Aid

### Federal and Provincial Student Aid

Provincial and federal student aid and loans are the best options for students who are unable to cover their tuition and living costs while studying. Applying online is easy and the Awards office is here to help.

If you are approved for student aid, you will automatically be considered for grants and bursaries. Your student loan will not need to be repaid while you study full-time.

Obtaining government student aid could mean having **more time to study**. With tuition and living expenses covered through grants, bursaries, and loans, you won't need to sacrifice study time to earn money at a job during the academic year.

It is now easier to apply for awards with our online application: [uwinnipeg.ca/awards/apply-for-awards](http://uwinnipeg.ca/awards/apply-for-awards)

# Tuition and Fees

[uwinnipeg.ca/tuition](http://uwinnipeg.ca/tuition)

Exact tuition fees are determined by the number of courses taken and the faculty that offers them. Five courses per term, or 30 credit hours per academic year, is the maximum course load. Full-time status requires a minimum of three courses per term (18 credit hours per academic year).

## Estimated Tuition and Fees for One Academic Year (September-April)

### 5 Courses Per Term (maximum course load)

<b>Tuition—5 Courses</b> (30 credit hours in any faculty)	\$4,490-\$5,150
<b>General Fees, Books, and Supplies</b>	\$2,300-\$2,500
<b>UWSA Health Insurance</b>	\$500
<b>U-Pass</b> (Unlimited transit access)	\$450
<b>Total</b>	<b>\$7,740-\$8,600</b>

### 3 Courses Per Term (minimum course load for full-time status)

<b>Tuition—3 Courses</b> (18 credit hours in any faculty)	\$2,695-\$3,090
<b>General Fees, Books, and Supplies</b>	\$1,700-\$1,900
<b>UWSA Health Insurance</b>	\$500
<b>U-Pass</b> (Unlimited transit access)	\$450
<b>Total</b>	<b>\$5,345-\$5,940</b>

### Note:

1. All fees are estimated for the 2024/25 academic year and are subject to change. Some programs may include additional costs. All figures in Canadian dollars.

# Stay Connected

## Talk to a Recruiter

Have a question? Our recruitment officers are available by phone, email and in-person to give you more information on programs and admission requirements, provide an overview of scholarships, and answer any questions about the online application.

Email [welcome@uwinnipeg.ca](mailto:welcome@uwinnipeg.ca) and we'll be in touch.

## Prospective Student Webinars

Speak with a recruitment officer and get an overview of our programs through our regular webinars.

Register online at [uwinnipeg.ca/presentations](https://uwinnipeg.ca/presentations)

## Future Students Newsletter

If you would like to receive more detailed information about UWinnipeg students, academics, and achievements, email [welcome@uwinnipeg.ca](mailto:welcome@uwinnipeg.ca) to get the newsletter in your inbox.

# Upcoming Events

## Future Student Night

[uwinnipeg.ca/fsn](https://uwinnipeg.ca/fsn)  
November 26, 2024

Join us for an interactive evening where you can talk to professors, current students, and staff about the outstanding opportunities available to you.

## Open House

[uwinnipeg.ca/openhouse](https://uwinnipeg.ca/openhouse)  
February 19, 2025

This event is a great starting point for future students who want to learn more about UWinnipeg programs and opportunities.
