We are seeking a permanent Customer Metering Technician Trainee to join our Electrical Insulation & Laboratory Services Department in Winnipeg, Manitoba

Responsibilities:

- Assists in preparing engineering designs and performs engineering analyses within scope of qualifications and experience.
- Assists in installing, maintaining, inspecting, and adjusting as required, measuring and control equipment such as pressure transmitters, recorders, remote metering, automatic controls, test equipment, and related equipment.
- Assists in devising and installing special circuits or mechanisms to improve existing equipment and solve field problems.
- Demonstrates ability and familiarity with the operation of personal computers in entering, processing, and retrieving data.
- Demonstrates ability in the safe and responsible use of hand and power tools, test equipment, and power equipment.
- Demonstrates ability to use and interpret instruments, and electronic monitoring systems related to the operation of natural gas systems.
- Demonstrates familiarity with purpose and function gas piping and tubing, fitting techniques, and procedures.
- Demonstrates an understanding of the principles and properties of natural gas.
- Repairs, calibrates, and final tests all types of industrial meters.
- Assists Government Inspectors when necessary.
- Accurately and concisely records data pertaining to commercial and industrial meter installations.
- Assists in the training of junior personnel.
- Prepares commercial and industrial meters, indexes, and instrumentation for installation.
- Maintains parts inventory of commercial and industrial meters.
- Communicates clearly, concisely, and accurately, in writing and orally, with co-workers, customers, outside consultants, agencies, and general public on work-related matters as required.
- Operates vehicles in a safe, courteous, and responsible manner, performing minor checks and maintaining vehicle in good and clean condition; drives defensively; reports vehicle and equipment defects and accidents.
- Responsible for the neat and orderly housekeeping of work area, equipment, buildings, grounds, and vehicles.
- Works in the Meter Shop and in a variety of other settings, such as commercial, industrial, and public buildings on the field work sites.
- Works safely in all weather conditions and special working conditions related to the gas industry.

Qualifications:

- Diploma in Electronic Engineering, Industrial Instrumentation Technology, or Electrical Engineering Technology from an approved community college or technical institution.
- Ability to work cooperatively in a safe, courteous, and responsible manner with co-workers, customers, and outside agencies following the standards, procedures, and policies of the company.
- Attend and satisfactorily complete training courses as assigned.
- Physically capable of performing duties associated with the position.
