What does the Joint Communications Program (JCP) offer?

The joint Degree/Diploma program offers you the opportunity to get both a 4-year Degree in Communications from the University of Winnipeg (UW), and a 2-year Creative Communications Diploma from Red River College Polytechnic (RRC Polytech).

Normally, a 4-year degree requires the completion of 120 credit hours of university coursework. This joint program offers you the possibility of receiving the 4-year Communications degree by taking 72 credit hours of coursework at UW, and the remaining 48 credit hours in the 2-year Creative Communications Diploma program at RRC Polytech. It offers the opportunity to get both a degree and a diploma in Communications at the same time, as well as experience what both university and college have to offer.

What are the UW course requirements?

There are some strict course guidelines that you need to fulfill to ensure your education is commensurate with the regular 4-year degree work. You will be required to take the following:

- 3 credit hours of Introduction to Rhetoric and Communications
- 3 credit hours of Academic Writing (if not exempt)
- 6 credit hours in Science
- 12 credit hours in Social Science
- 3 credit hours of Indigenous Requirement courses
- RHET 2131(3) Professional Style and Editing
- RHET 2135(3) Rhetorical Criticism
- RHET 2137(3) Introduction to Contemporary Communication Theory
- RHET 3340(3) Technical and Professional Communication
- at least 3 additional credit hours of upper-level courses offered by the Department of Rhetoric, Writing, and Communications.
- 18 credit hours of cluster courses:

You will need to select **one** of four cluster areas (see the four clusters later in this document) and take 18 credit hours of advanced level courses from your cluster. In several cases, you may need to complete prerequisites to enter the advanced courses. For example, advanced Business, Psychology, Sociology, and Theatre courses require successful completion of a prerequisite. History, Political Studies and Conflict Resolution Studies (CRS) typically waive their prerequisite for JCP students.

Please note: many cluster courses fulfill the Social Science requirement, and this may allow students to take elective courses to complete the full 72 credit hour requirement for the Degree portion of the program.

How long is the program?

Students typically complete the program in 5 years. We recommend that students first spend 3 years at UW, and then spend the final 2 years at RRC Polytech.

Completing the program this way has several advantages:

- It allows enough time for you to gain admission into courses at UW that can be difficult to access because they are offered every other year, scheduled at inconvenient times, or filled to capacity.
- The Creative Communications program offers opportunities for work placements. Completing these placements later in the program can be helpful when looking for work immediately after you graduate.
- It helps students avoid having to complete outstanding UW credits after attending RRC Polytech, which can be difficult if on a placement or after starting a permanent position.

Students have occasionally completed the program in 4 years instead of 5. This may require taking some courses each Spring or taking some UW credits while also attending RRC Polytech. This plan has drawbacks: you may not have the opportunity to take courses in the Spring, or have time to take classes at U of W while attending RRC Polytech full-time. In addition, even if you are prepared for a crammed schedule, you may not find the required courses offered at the times you have available. For these reasons, we generally recommend students take 5 years to complete the program.

How do I enroll?

Students are required to apply and pay an application fee at both institutions.

To apply to The University of Winnipeg, please see: <http://www.uwinnipeg.ca/apply>

- For more information on applying to UW, contact a student recruitment officer at welcome@uwinnipeg.ca or 204.786.9844.
- To talk to an advisor about the program, contact rhetoric@uwinnipeg.ca

To apply to RRC Polytech, please see: www.rrc.ca. When applying, please note:

- RRC Polytech does not reserve seats for JCP students. You are advised to apply to the RRC Polytech start date you wish to attend once it is advertised on RRC's website at www.rrc.ca/cre.
- The annual application deadline is April 30.
- A selection process will determine final candidates. Offers of admittance will be made to qualified applicants based on portfolio scores in descending order until all available seats are filled. Applicants who are not offered a seat may reapply for a future intake by submitting a new application, application fee, and portfolio based on the portfolio specifications for that application year.
- To talk to an advisor, or for further information on applying to the Creative

Communications program at RRC Polytech, contact recruitment@rrc.ca.

Choosing first-year courses

It's important to choose first-year courses that prepare you to take the advanced courses in a single cluster. The cluster templates on the following pages will suggest possible paths for your first year of study.

What are the 4 clusters?

The clusters are areas of concentrated focus for your degree work within the program. The clusters correspond roughly to the four majors offered in the Creative Communications program at RRC Polytech, but students are not required to select a cluster that matches their eventual major at RRC Polytech – the cluster you choose at U of W does not affect which courses you can select in the Diploma program.

Please note: you will need to complete 18 credit hours of cluster courses. If required because the necessary courses aren't offered prior to a student graduating, the Department **may** approve alternate courses for inclusion (course substitutions) which seem to fit coherently with others in the cluster; students seeking such approval should consult with the Rhetoric, Writing, and Communications Department Chair.

Template Examples of Course Work for Each Cluster

On the following pages are the clusters as they are currently constituted. Because courses and offerings are often revised in other departments, this list is updated on a yearly basis to reflect actual course offerings.

The templates that follow are guidelines and the courses listed are meant to provide examples to guide your choices. In any case where the University's Academic Calendar and this FAQ sheet differ, the Calendar takes precedence.

Cluster 1: Human Relations Template

This template provides an example of one way to pursue this cluster as part of the requirements for the Joint Communications Program.

Due to the prerequisites involved in this cluster and the rotation of upper-level courses, this path cannot normally be completed within two years, even for a student who plans to take Spring classes.

Electives

Students may take additional courses as electives after completing the requirements on the right (if necessary to complete 72 credit hours).

First year – Fall/Winter (24-30 credit hours)

Required Courses

3 credit hours of Intro to Rhetoric & Communications:

- RHET-1120(3) Introduction to Rhetoric and Communications

3 credit hours of Academic Writing (unless exempt from the Writing Requirement):

- RHET-1102(3) Academic Writing: Social Sciences, or any other Academic Writing section

6 credit hours of Science:

Can be fulfilled by a number of courses (see Degree & Major Requirements section of Academic Calendar for full list).

12 credit hours in Social Sciences:

Can be fulfilled by a number of courses, including many Psychology and Sociology courses (see Degree & Major Requirements section of Academic Calendar for full list).

3 credit hours of Indigenous Requirement courses:

Can be fulfilled by a number of courses, including RHET-2141(3) Representations of Indigeneity (see Degree & Major Requirements section of Academic Calendar for full list).

Prerequisites for Cluster 1: Human Relations (prerequisites do not count toward the major requirements):

- PSYC-1000(6) Introductory Psychology (*prerequisite for PSYC-2400 & PSYC-2410*)
