

## November 12, 2024: Nexus Log-in will use DUO Multi-Factor Authentication

Starting on November 12, there will be two changes to how all faculty, staff and students log in to Nexus:

1. Your current UWinnipeg network account username (e.g. "lastname-firstinitials") will no longer be used. You will instead need to log in to Nexus with your full UWinnipeg email address (e.g. "j.doe@uwinnipeg.ca").
2. Everyone will need to authenticate through [DUO for Multi-Factor Authentication \(MFA\)](#).

**IMPORTANT:** If you have not already done so, please ensure you've set up and enabled DUO prior to November 12<sup>th</sup> to maintain access to Nexus courses. For assistance, please refer to the link above, or contact [the Technology Service Desk](#).

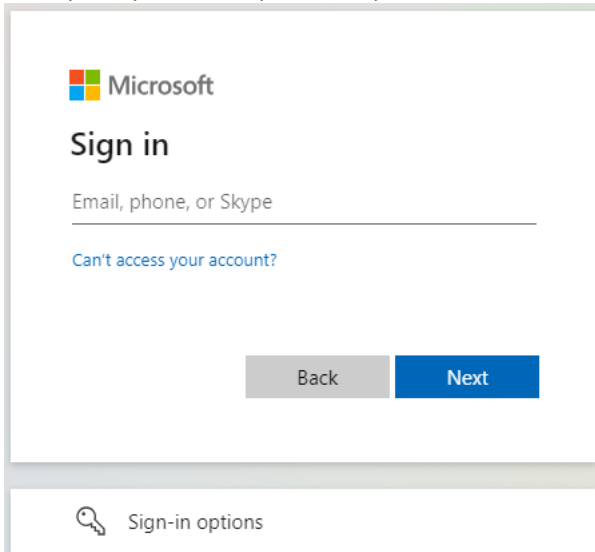

If you already use DUO for your UWinnipeg email access, no further action or set up is needed on your part. Starting November 12<sup>th</sup>, simply use the new, blue "**Staff and Student Log In**" button on the Nexus sign-in page, then follow the usual DUO prompts when logging on:

### How to Log on to Nexus with DUO:

1. Navigate to the [Nexus](#) login page.
2. (NEW) Select the blue "**Staff and Student Log In**" button:

3. You will be taken through the DUO authentication process. In the Sign in field, enter **your full UWinnipeg email address**, then select the blue "**Next**" button and follow the DUO prompts to complete the process.

**Note:** If you're already signed into a separate, UWinnipeg DUO-enabled application (e.g. UWinnipeg email), you may be automatically granted access to Nexus after selecting the blue Log In button, without being prompted to enter your DUO credentials.

### For more information:

Starting Nov. 12<sup>th</sup>, refer to the "Log in and Contact Issues" section of the [Student Learning Technologies FAQ page](#) for answers to related questions about using DUO for Multi-Factor Authentication with Nexus.

Please [contact the Technology Service Desk](#) if you have any questions.
